

Today's SkyCast

is **YELLOW**

which indicates **elevated air pollution levels**

Help improve local air quality:

- ➔ Carpool, combine short car trips, use public transit, bike or walk to your destination.
- ➔ Don't top off your gas tank and refuel in the evening.
- ➔ Don't idle your car for more than 30 seconds.

Clear Thinking.
Clear Air.

This information is
brought you by the
Mid-America
Regional Council's
Air Quality program.

The SkyCast is the **daily air quality forecast** for
Greater Kansas City. Find it at www.marc.org,
via local media outlets, or by calling **(913) 383-7557**.
